

**Job Title: - Project medical officer**

**Organization: Smart African Village Development Consortium. (SADO)**

**Location: Smart African Development Consortium P. O. Box:800334**

**Ntinda Plot 1191, Masembe Road**

**Background:**

**Smart African Village Development Consortium** is seeking qualified and experienced persons for this position. The organization is committed to reducing the burden of Non-Communicable Diseases (NCDs) in Busoga Region, and is seeking a Technical Officer - Project Medical Officer to support its NCD control efforts.

**Purpose:**

The Technical Officer - Project Medical Officer will provide technical and medical support to the organization's NCD control programs, ensuring that they are evidence-based, effective, and aligned with national and international NCD control policies and frameworks.

**Key Responsibilities:**

1. Provide technical and medical support: Provide technical and medical support to the organization's NCD control programs, including training, mentoring, and coaching.
2. Develop and implement NCD control programs: Support the development and implementation of NCD control programs, including conducting needs assessments, developing program designs, and ensuring that programs are aligned with national and international NCD control policies and frameworks.

3. Monitor and evaluate NCD control programs: Support the monitoring and evaluation of NCD control programs, including developing monitoring and evaluation frameworks, collecting and analyzing data, and disseminating findings.
4. Provide medical expertise: Provide medical expertise to support the development and implementation of NCD control programs, including providing guidance on clinical management, diagnosis, and treatment.
5. Support the development of NCD policies and guidelines: Support the development of NCD policies and guidelines, and ensure that they are aligned with international best practices.
6. Collaborate with stakeholders: Collaborate with stakeholders, including government agencies, NGOs, and community-based organizations, to support NCD control efforts.

**Deliverables:**

1. Technical and medical support plans: Develop plans to provide technical and medical support to the organization's NCD control programs.
2. NCD control program designs: Support the development of NCD control program designs.
3. Monitoring and evaluation reports: Support the development of monitoring and evaluation reports.
4. Medical expertise: Provide medical expertise to support the development and implementation of NCD control programs.
5. NCD policies and guidelines: Support the development of NCD policies and guidelines.

**Requirements:**

1. Medical doctor, Medical degree (MBChB or equivalent) with a valid medical license.
2. Experience: At least 3 years of experience in controlling NCDs, preferably in a clinical or public health setting.
3. Technical expertise: Technical expertise in NCD control, including knowledge of NCD risk factors, prevention and control strategies, and program management.

4. Communication skills: Excellent communication skills, including written and verbal communication.

5. Teamwork: Ability to work effectively in a team environment.
